All day monitoring
Accurate health data

It provides health functions such as heart rate, blood oxygen, pressure and respiratory rate measurement, automatic atrial fibrillation arrhythmia detection, night sleep quality analysis, and sporadic nap records.

Heart Rate
08:30
102 BPM
Max
124
Min
78

SpO2
08:30
96%
Max
99
Min
96

Heart rate monitoring

Accurately monitor your heart rate for 24 hours. When the heart rate exceeds the warning value, it will vibrate in time to remind you.

Blood oxygen monitoring

Real-time monitoring of blood oxygen levels to help you adjust your status in time.

*Monitoring data and results are for reference only, not for diagnosis and treatment.

Blood Pressure
08:30
120
90
mmHg
SBP
90-130
DBP
60-86

Blood pressure monitoring

Raise your wrist to view blood pressure data, accurately monitor the trend of blood pressure and warn of abnormal blood pressure.

Sleep
08:30
23:00
06hr
30min
23:00-05:30

Sleep monitoring

Sleep monitoring can more accurately determine sleep stages (light sleep, deep sleep, rapid eye movement period), and provide sleep quality analysis.

Battery life and performance

Dual-core architecture, high-performance chip with strong performance, two modes to meet your different needs.
