Health incoming • ECOS Hydrogen Water Maker

In order to let people drink Hydrogen water any time at any place, our R&D staffs improved the big conversion machine of Hydrogen Molecule to be a portable H₂O Maker, under the condition of without changing the principle of Water molecules transformation.

Intelligent technology • Ultimate portable

Dimension: $\varnothing 18 \times 170$ mm
Weight: 37g
Input interface: microUSB
Input Spec: 5V/1A
Working Temperature: 5°C-40°C
Material: Platinized Titanium

Working Mode	Working Time	Suitable water volume	Hydrogen concentration
Mode 1	3mins.	300 ml	600 PPB
Mode 2	6mins.	500 ml	800 PPB

To have a healthy drinking easily

Using the new electrolysis technology of that to electrolyse water into Hydrogen ions and Oxygen, which promotes the combination of Hydrogen ions and Water to improve Hydrogen concentration
