

SB-450IW ice & water vending machine

Features:

- ★ Luxurious waterproof steel cabinet, the front door open design, safety and health, durable and easy installation. Build-in intelligent separate coin/ coin changer, to achieve automatically store coin, automatically give change function.
- ★ Use efficient spray ice film to make ice, automatically supply water, make ice, and take off ice, stop, output bag, output ice.
- ★ Advanced RO purification technology, nine levels effective water treatment, the water quality according with the national standards.
- ★ Intelligent coin, induction IC card and note selling control technology, billing accuracy reach 0.01 yuan.
- ★ 24 hours uninterrupted UV sterilization, guarantee the water quality. Advanced digital technology, to control the business situation at any time.
- ★ It's convenient to replace filters, and easy to maintain.

Performance:

Power supply	AC 220V 50Hz/AC 110V 60Hz				
Ice capacity	420kg/24H	Production water capacity	1000GDP	Water source	Municipal Tap water
Ice store capacity	200kg	Water tank	300L	Filtration Step	9 steps
speed	1kg/5 seconds	Output water flow	12L/min	Sale method	IC card /coin/note
Ice container	Plastic bag /incubator		Size of filling bottle	5 gallon bottle or smaller one	
size	L210Cm *W115CM*220CM
