

Description

This machine is used for digital inkjet printing for barcode on single sheet. It can be widely used as barcode printing & coating solution in medicine & food package, lottery, ticket, bill, note & cards. It can be customized according to customer requirement to equip with common ink printing & IR drying system or UV ink printing & UV curing system or both. Powder removing section is also available to be added as an optional function. Which can improve the printing quality & increase the life of printing head. The UV coating (or water based coating) section after printing section can finish the coating process right after printing without any stop. This can rapidly increase the paper surface shine & protect the printed image from external damage.

Specifications

Model	PMCSZ-UV920A	PMCSZ-UV1040A
Max. paper size	920×920mm	1040×920mm
Min. paper size	420×307mm	420×307mm
Max. speed	4000sph	6000sph
Power	92kw	94kw
Paper Weight	105-600g/m ²	105-600g/m ²
IR drying	1.5×6×2kw	1.5×6×2kw
UV curing (coating)	2×8kw	3×8kw
IR drying(coating)	1.5×9×1.5kw	1.5×9×1.5kw
Weight	6.6t	6.8t
Overall Dimension	18000×1800×1600mm	18000×1900×1600mm
