

1ft 3W LED tube light integrated T5 tube

400lm high brightness, 24 pieces 2835 SMD LED Leads, length 300mm (1ft), 50,000 hours lifetime and 3 years warranty, CE/RoHS approved

Advantages:

1. T5 3W LED tube light is brighter than a 10W traditional fluorescent, saving up to 75% in electricity and hundreds in unnecessary tube replacements
2. Our LED tube lights lifespan is over 10 years maintenance free, if used 12 hours a day
3. Our LED tube using isolated power outlet standard of quality, ensuring product safer, more at ease
4. All LED tubes shell is made of high quality aluminum and translucent PVC, better quality
5. All LED tube light are CE/RoHS approved and 3 years warranty
6. LED tubes can be used in all indoor warehouse, supermarket, school, university, offices and garages
7. Goods is going to be supplied direct from factory production line, no intermediary cost will be involved
8. We take apply pay or PayPal for small or trial orders

Welcome to visit our factory base in Shenzhen China.

PC COVER

CE approved PC materials.
>95% transmission rate.
Soft light or bright light optional

Transparent mask

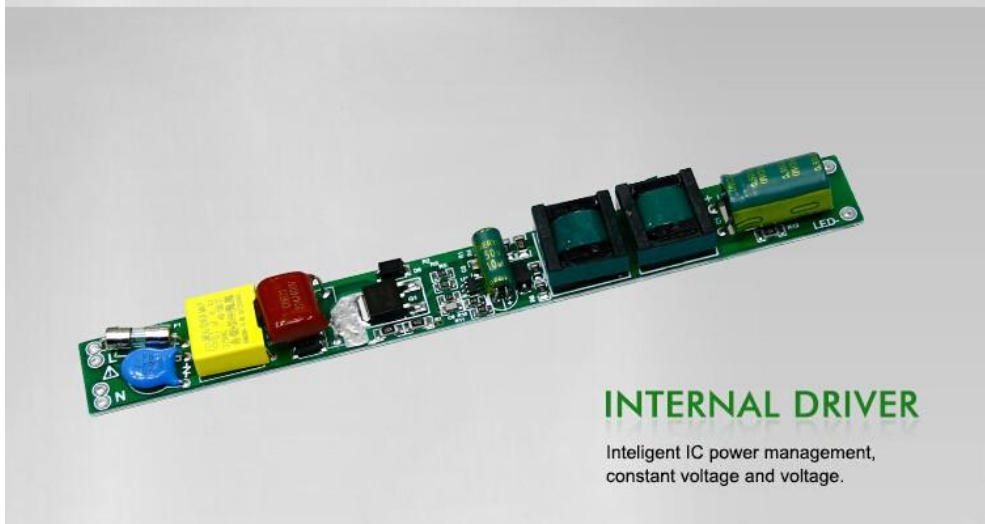

Milky white mask

Stripe mask

ALUMINUM HOUSING

Thick radiator.
High-Purity aluminum heat sink.
Best cooling effect.

INTERNAL DRIVER

Intelligent IC power management,
constant voltage and voltage.

ALUMINUM PCB

best 0.9mm thickness aluminum for
best cooling effect.

LED CHIP

High brightness, high efficiency.
