

Material	NBR/pvc
Cell structure	Obturator,Holes
Feature	Flame-retardant,Low Thermal Conductivity,Light
Use	Buffer material,Insulation material
Maximum size	10000*1000*50(mm)
Density	45~ 95(kg/m3)
Hardness	≤10
Compression strength	≥12(25%kpa)
Stretching the length	≥120(%)
Elongation	≥120(°C)
Temperature	-40~+105

Glue	solvent-based pressure-sensitive adhesive
Appearance	light yellow transparent liquid
Solid content	40%
Viscosity (CPS)	about 3800
Initial viscosity (ball)	12
Continuous viscosity h (1kg weight)	72
180 degree peel strength, N/25MM	11
Standard certification	Q / INNC 1-2009
