

Features:

1. High sensitivity super low friction air cylinder tension testing control
2. Vector frequency conversion motor control initiative unwind, produce zero tension control and the steady tension output in high/low speed process
3. Material change pre-drive and automatic cutting, no stop when change roll, waste is little
4. Rotary processing precision high, rotary space is little, guarantees the machine installation precision, improves stability.
5. Safety gas cap air expansion shaft clamping way, fast change, centering accurate
6. Rotary frame automatic positioning

Technical Data:

| | |
|-------------------------|--------------------------|
| Print material | BOPP、PET、PVC、PE、NY、Paper |
| Print width | 850、1050、1250、1500mm |
| Mechanical speed | 270m/min |
| Plate cylinder | Φ120mm~300mm |
| Unwind, rewind web dia. | Φ600mm Φ800mm |
