

## Features:

1. High sensitivity super low friction air cylinder tension testing control
2. Vector frequency conversion motor control initiative unwind, produce zero tension control  
and the steady tension output in high/low speed process
3. Material change pre-drive and automatic cutting, no stop when change roll, waste is little
4. Rotary processing precision high, rotary space is little, guarantees the machine installation  
precision, improves stability.
5. Safety gas cap air expansion shaft clamping way, fast change, centering accurate
6. Rotary frame automatic positioning

## Technical Data:

Print material	BOPP、PET、PVC、PE、NY、Paper
Print width	850、1050、1250mm
Mechanical speed	320m/min
Plate cylinder	Φ120mm~300mm
Unwind, rewind web dia.	Φ600mm Φ800mm
