

R-209 high performance superplasticizer for dry-mixed grout mortar

Description

R-209 is a free-flowing spray dried powder based on polycarboxylic ether. R-209 is especially optimized for plastification and water reduction of cementitious construction materials.

Technical data

Appearance	Powder
Bulk density(kg/m ³ ,20℃)	≥450
Moisture(%)	≤5
Dosage recommendation % (in relation to weight of binder)	0.2

Application

- ◆ non-shrink grout mortar/constant temperature mortar
- ◆ mortar floors / self-leveling mortar / waterproofing mortar/ repair mortar
- ◆ crack filler / gap filler / joint filler
- ◆ dry-mixed mortar
- ◆ gypsum products
- ◆ cementitious fast setting floor screeds
- ◆ oil well cementing additive

Packaging 25kg plastic woven bag

Storage to be stored in its unopened original packaging, please store dry at usual ambient temperature and protect from excessive heat(below 40℃)

Shelflife 1year
