

### Model SCF1100 Curved Surface Sander:

#### Characteristics :

1. Model SCF1100 Curve Surface Sander is special for entry doors, cabinet doors, shutter, photo frame etc.
2. The machine adopts sections welding and make ageing treatment and have good effect of vibration & absorption.
3. Combination of sanding roller and sanding disc adopt inverter.
4. Simple touch-screen operation systems and replaceable single sanding unit ensure the machine used easily.

Working pieces	Thickness	10---100mm	Motor (KW)	Rear brush disc	1.5
	Width	50-1100mm		Front brush disc swing	0.37
Sanding roller speed	Front	50-300r/min		Rear brush disc swing	0.37
	Rear	50-300r/min		Feeding	2.2
Sanding disc	Speed	50-300r/min		Lifting	1.5
Sanding disc set	Speed	10-60time/min		Vacuum device	7.5X2
Conveyor	Size (WXC)	1100x6543mm		Exhaust air consumption	9000m <sup>3</sup> /h
Motor (kW)	Front brush roller	2.2	Pressure	1300Pa	
	Rear brush roller	2.2		Air Speed	25-30m/s
	Front brush roller lifting	0.37			
	Rear brush roller lifting	0.37			
	Front brush disc	1.5
