

17,800kg

Operating Weight

160kw @ 2,200rpm

Net Power

3.3m³ - 5.6m³

Bucket Range Capacity

Tier4

Emission

Features and benefits

Built for Efficiency

- Low fuel consumption engine that doesn't sacrifice any power.
- World class and reliable ZF auto transmission with Kick down for energy saving and efficient operation.
- Powershift for smooth strong gear changes.
- Torque converter matches engine efficiently.
- Boom Kick-out & return to carry greatly increases efficiency of repetitive loading tasks.
- Optional 3 spool working valve.
- 40 degree angle of articulation for working in tight spaces.
- Meets EU stage IIIB/EPA tier 4 emission requirements.

Easy to Maintain

- Easy engine access, convenient placement of key parts and fluid refill points.
- Fault Diagnostic system gives fast accurate maintenance support.
- Optional Automatic lubrication.
- LiuGong Wet disc braking system maintenance free.
- LiuGong Wet disc axle maintenance free.
- Reversible Cooling Fan makes cleaning easy.

Operator Comfort and Safety

- Adjustable steering column & seat promotes comfort and reduces fatigue.
- 360 degree clear visibility. Defroster.
- Optional Emergency steering system.
- Optional Ride Control safer, smoother, and faster in rough terrain, also no lost loads.
- FOPS/ROPS cab. Gear shift & attachment in FNR single joystick.
- Back-up alarm. Rearview Camera.
- Pressurized Sound reduction cab.
- AM/FM with MP3.
- Cigarette lighter works as electrical outlet.

Always Reliable

- World-class Cummins engine & ZF transmission. Parts, Attachments, and Service to Count on.
- Hinge joint protected drive shaft.
- Life time dual hinge taper rolling's distribute horizontal and vertical load effectively.
- Excellent seals prevent bearing damage in harsh chassis plates with robust chassis and boom design for great torsion resistance.
