

- Product Name: MD-1000/1500 Automatic Squeegee Grinding Machine

Characteristic

MD-1000/1500 machine is especially made and auxiliary for the screen printing machine, widely used in the printing industries of PCB and high-precision printing etc, and easy to operate. It features as below:

- 1.The grinding wheel is made of emery, improving the grinding precision and the useful life.
- 2.Quick clamping, easy loading and unloading.
- 3.Low noise, the dust extractor prevents the grinding scraps from splashing, and the squeegee edge is adjustable to be ground.
- 4.Use Mitsubishi frequency conversion device.
- 5.Obverse and reverse cutting, high precision, smooth and steady driving, and fine adjustment by micrometer for grinding.
- 6.Contacter, relay, and proximity sensor etc, imported from Korea, Japan and Germany, such as Omron and LG products.
- 7.The machine outer is by powder coating, convenient for maintain.

Specification

| Model | MD-1000 | MD-1500 |
|------------------------|---------------|---------------|
| Grinding Length (mm) | 1000 | 1500 |
| Total Power (kw) | 1.8 | 1.8 |
| Machine Weight (kg) | 200 | 250 |
| Dimension (LxWxH) (mm) | 1524x550x1250 | 1524x550x1250 |
