

Chemical Fiber Cloth Tape

(N106 451 02)

Function: It is specialized used for wrapping automotive wire harness, This product is adopt good radix material, have strong superficial anti-dirty ability and high temperature resistance stability suitable for internal delicate position of auto. With features of easy unwinding, vibration proof, sound reducing, good adhesion and tensile strength. Used for auto wire harness wrapping.

Characteristic: ▶ Meet the Car Engine radiator high temperature resistant requirements
▶ thin

Technical Data

	Dimension	Values	Test Method
Thickness	mm	0.17±0.03	Vw60360
Width	mm	19	Vw60360
Adhesion Strength	N/cm	4.2	Vw60360
Tensile Strength	N/cm	120	Vw60360
Elongation	%	20	Vw60360
Temperature Range	°C	-40/125	Vw60360
Abrasion resistance		130	Vw60360
unwind strength	N	5.2	Vw60360
Tear by hand		YES	Vw60360
Flame stability	mm*min	58	Vw60360
Noise reduction	dB	4	Vw60360

Gule : Pressure sensitive adhesive

colour: black

structure: high quality rubber chemical fiber cloth adhesive tape, strong anti-aging ability.

Certificate: ▶ company system: TS16949

▶ Product test reports: SGS, OTS approval by China FAW-VW, CTI

Advantages:

- 1) High adhesive force
- 2) Tearable by hand
- 3) Very big resistance against abrasion
- 4) Flexible and easy to handle
- 5) High temperature resistance
- 6) Low temperature resistance
- 7) Excellent media resistance
- 8) Conforms to RoHS
- 9) Very high noise reduction effect
- 10) Extremely soft surface
