

Industry Focus	Appliance/ Automotive/ Agricultural Electronics/ Industrial/ Marine Mining/ Hydraulics/ Valves Oil and Gas/ Electrical/ Construction
Intended Application	Shafts Valve Components Automatic Door Components Cable/ Electronic Connector Fire Suppression System Components Fittings/ Fasteners Gears/ Hardware Roller Bearings
Lead Available Times	Max: 2 Weeks (On Initial Order) Rush Services Available
Industry Standards	ISO 9001:2008 PPAP RoHS Compliant
Additional Capabilities	CAD Design Services CAM Programming Services Coordinate Measuring Machines (CMM) Reverse Engineering
Equipment List	From simple 2-axis turning to 7-axis, turn-mill-drill CNC Swiss-type machines, we are equipped with a full line of CNC equipment from the following manufactures: molding machines/ stamping machines automatic lathe machines/ spring machines.
Automation Capabilities	Continuous Machining
Material (Metals)	Alloy Steels/ Aluminum/ Brass/ Bronze Alloys Carbon Steel/ Copper/ Stainless Steel/ Tool Steel Cold Rolled Steel/ Bearing Steel
Material (Plastic Polymers)	ABS/ Delrin/ Nylon/ PVC
Processes (Special Capabilities)	Broaching/ Hobbing/ Slotting
Tolerance	±0.0002 in ±0.0051 mm
