

Description

GuoWei brand unloading paper machine series , have paper feed automatic and paper unloading functions , can deliver the kinds of the cutting products to the place quickly where you want to book, at the same time, unloading them to the base table where you want to book. The process of feed and unloading, accurate , efficient , reduce labor intensity , improve labor efficiency and increase the working precision .

The machine working table with air balls devices , the process of up and down by the flat worm gear drive ball lead screw , guide-rail , ensure the worktable smooth and accurate . The worktable move around driven by a worm gear reducer drive rack , the guide-rail slider to make table moving easily . This machine has automatic , accurate and efficient feed , unloading advantages. It equip with Japan, Taiwan pneumatic components, France, Germany, Japan, Korea electric components, PIC controller can monior all the electrical and mechanical section, adopt NSK bearing of low maintenance.

Specifications

Model	EG90-4	EG130-4	EG160-4	EG180-6
Max.unloading paper size(cm)	80×120	90×120	105×145	120×162
Min.unloading paper specification(cm)	10×40	10×40	10×40	10×40
Ma×.stack height of paper(cm)	16.5	16.5	16.5	16.5
Min.stack height of paper(cm)	4	4	4	4
Max.table height from the ground(cm)	140	140	140	140
Min.table height from the ground(cm)	20	20	20	20
Max.Loading(kg)	200	200	300	400
Unloading paper cycle(sec)	20-40	20-40	20-40	20-40
Total machine power(kw)	3	3	4	6
Paper cutter adaper	92/130/115	92/130/115/137	155/166/176	166/176/186

specification(cm)				
Overall dimension(cm)	295×145×215	310×190×215	345×216×215	360×240×215
Machine net weight(kg)	700	900	1100	1500
