

Description

1. The Pressing-Creasing Machine is an easy and effective equipment for making hard cover book. One operator can operate the machine after the books are covered, and it is easy to change the size of cover which makes machine become the first choice for making hard books.
2. Pneumatic and hydraulic power.
3. Adopting PLC operating operating system.

Specifications

Model	MF-PCM 380
Power Supply (V/HZ)	380/50
Max Pressing Size (MM)	360×300
Max Pressure (T)	2-5
Power (KW)	1.8
Dimensions (L×W×H) (MM)	1630×620×1550
Machine Weight (KG)	200
