## D247LE-63

## DZ47LE-63 Residual Current Operated

## Circuit Breaker With Over-current Protection

## 1. Application

DZ47LE-63 is applicable to a line of AC $50 / 60 \mathrm{~Hz}$, rated voltage 230 V for single pole two-wire, 2 -pole or 400 V for 3 -pole, 3 -pole 4 -wire, 4 -pole and rated current up to 40A. It can protect the line and motor from overload and short circuit. It can also be used for infrequent line conversion and infrequent motor start. It conforms with the standards of IEC61009.
