

## Feature:

1. the combination of steel roller and soft roller, ensure the division of tension sections
2. Adopt inertia matching algorithm design, vector frequency conversion motor drive feeding roller tension control, ensures more stable printing tension
3. Soft roller clutch link main engine, finished by central controller
4. Wall board is high intensity low stress alloy cast iron, high precision independent unit frame.
5. Feeding tension is set by precision reducing valve.

## Technical Data:

Print material	BOPP、PET、PVC、PE、NY、Paper
Print width	850、1050、1250、1500mm
Mechanical speed	250m/min
Plate cylinder	Φ120mm~300mm
Unwind, rewind web dia.	Φ600mm Φ800mm
