

Description

High-grade printed paper coated by coating machine, then hot-pressure processed by this machine, will be much shiner. After being calendared, paper will be smooth and its thickness will remain, and get the same effect of perfect cardboard. The calendar belt of this machine adopts grinded imported hard steel.

Auto feeder and gas heating system can be optional.

With strip wandering guards to protect expensive steel.

Specifications

Model	YG-1000	YG-1200	YG-1400
Specification of calendar belt	1000x12000mm	1150x12000mm	1240x12000mm
Max. paper width	950mm	1100mm	1200mm
Speed	1-26m/min Infinite speed variation		
Working pressure	8-15Mpa		
Temperature	Room temperature-150℃ Auto control		
Electric heat	36kw	36kw	36kw
Power	3kw	3kw	4kw
Weight	3t	3.5t	4.5t
Overall dimension	7000x1860x1830mm	7000x2080x1830mm	7000x2260x1830mm
