

DUAL BAND

VHF:136-174MHz

UHF:400-520MHz

350-390MHz(Optional)

Dual band(VHF & UHF) displaying features are as follows:

1. Being suitable for both VHF and UHF users
2. Being selectable at VHF or UHF working mode (single band working)
3. Being alternative in double frequency receiving mode that is "double waiting, double standby" working mode.
4. Being selective in single frequency receiving mode that is "single waiting, single standby" working mode.
5. FM Radio
6. With high Li-ion battery capacity (2300mAh), standby for a superlong time
7. With twin charger, being able to charge two battery packs

Main functions:

- ◆ Menu Mode
- ◆ VOX
- ◆ Keypad
- ◆ 107 DCS
- ◆ 50 CTCSS
- ◆ LCD Display
- ◆ Priority Scan
- ◆ Channel Naming
- ◆ Li-ion Battery Pack
- ◆ Busy Channel Lockout
- ◆ Hi/Low Power
- ◆ Multiple Call Tones+1750Hz
- ◆ Time-out Timer
- ◆ Low Battery Alert
- ◆ PC Programmable
- ◆ Frequency/Channel Scan
- ◆ Battery Strength Indicator
- ◆ Selectable Squelch Level
- ◆ CO/TO/SE Scan Switchable
- ◆ Programmable Greeting Message
- ◆ Selectable Name/Frequency Display Mode

Specifications

Channel Capacity	199
PLL Channel Spacing	5/6.25/10/12.5/25KHz
Battery Voltage	7.4V(Li-ion)
Antenna Impedance	50Ω
Operating Temperature	-20℃ ~ +60℃
Frequency Stability	± 2.5PPM
Dimensions (With Battery)	87h(H)X53(W)X34(D)mm
Weight (With Battery)	260g
Standard Package	Gift box (unit body together with the accessories)

Compatible With American Military Standard(MIL-STD-810C/D/E)
