

Xsmart11 All-in-one POS terminal

Xsmart11 is a Wince 6.0 OS full functionalities rugged smart handheld terminal with high quality , safe and stable feature, adopting Samsung S5PC210 1.0Ghz processor. Support wireless communication with other devices and friendly operation interface. Rich functionalities can customized according to the buyer's requirements and now it is widely used in logistics, food traceability , retail, banking, telecom, traffic , government and other various field with the more efficient, stable and safer complete solution.

Product Specification

Basic parameters		
OS	Windows Embedded CE 6.0	
CPU	Samsung S5PC210 @1GHz	
RAM	DDR2 512MB	
NandFLASH	512MB	
TF card	32GB	optional

LCD display	3.5 " 240*320 LCD screen , resistance touch screen optional		
Communication	GPRS/3G(WCDMA)		optional
	WIFI	IEEE802.11b/g/n 2.4G	optional
	Bluetooth	V2.1+EDR	optional
	GPS		optional
Bar code scanner	1D/2D bar code scanner		optional
RFID(13.56MHz)	Support ISO14443A/B ISO15693		optional
NFC(13.56Mhz)	Support ISO14443A/B ISO15693		optional
Fingerprint	Built-in Capacitive fingerprint module		optional
IC card	Contact smart card, support EMV ,but no EMV certificate		optional
Magnetic Card	Triple track(track 1,2&3)		optional
PSAM	2*PSAM		optional
Printer	58mm thermal printer, 30mm paper roll		optional
Camera	3.0 Mega Pixel back camera		optional
Interface	1* mini USB		optional
Battery	7.4V, 2500-4000mAh		
Working environment			
Operating temperature	-10-50 centigrade degree		
Storage temperature	-20-60 centigrade degree		
Humidity	5-95% RH(No condensing)		
IP rating	IP65		
Regulatory Approvals	CCC, CE, ROHS, FCC, WEEE and IP
