MSQ-B Series End Face Grinding Machine

1. Quotation:

MSQ-B Series USD.-/unit

2. Terms of Payment:

30% deposit by T/T when confirming the order

70% balance by T/T before shipping.

3. Performance:

MSQ-B series face grinding machine is new products developed in 1990s, which collects MSQ-A series various features, adds the electromagnet suction, longitudinal adjustment of grinding head. The guide adopts the changeable steel so as to resolve the historical problem of cast iron guide wearing. It can grind any angles and any material blades quickly and perfectly. The grinded knife edge is very sharp and with remarkable results for cutting paper.
