Model	RLB707
D,H(mm)	D152,H 190
Working voltage	12V or 24V
Rotational Speed	180±20 RPM nominal
Bulb Type	Halogen H1 Type, 12V or 24V
Operating Temperature	-30°F (-30°C) to 122°F (50°C)
Recommended tightening torque	Single bolt: 7Nm, Three bolt: 3Nm, DIN A: 3Nm

ROTATING BEACON

Features:

- Single-bolt, three-bolt, magnetic and pole mount options are available to meet needs of different mounting applications. The pole mount type features a DIN A mount specification which provides a standard mounting socket for all type of vehicle internationally.
- With standard cigarette plug for magnetic version and easy wirings for all other types.
- Power rate is available in both DC12V 55W and DC24V 70W on each beacon by changing the bulb and drive belt track easily. The H1 bulb provides reliable and high brightness warning signals as well as an easy maintenance.
- Superior driven system enable a reliable and low-noise working of the beacon.
- Optimized reflector design gives an excellent light efficiency in a wide area.
- Beautiful appearance.
- Compliant to ECE R65 and E-Mark regulations.
