

Description

This machine is used for digital inkjet printing sheet by sheet on printer paper, suitable in the fields of medical, food packaging, lottery, ticket, bill, note and cards.

Automatic Feeding Section: High-speed stable feeder free from maintenance is adopted with non-stop paper feeding system.

Optional: pre-pile paper system;

Correction and register section: Left and right position register device is used according to different paper position. Register tolerance is $\pm 0.3\text{mm}$

Digital inkjet printing system: Good stability for vacuum suction feeding, whole casting lengthened high-speed printing system, high-accuracy printing position.

Drying section: Open IR energy-saving drying with high-efficiency.

Scrap picking section: Pneumatic overturning scrap picking configuration is convenient for scrap inspecting and removing.

Automatic delivery section: Jogging times can be set according to paper weight.

Pneumatic joggers keep sheets delivered orderly. Equip with counter for coated sheets, pre-delivery table which will be automatically open when paper jam in delivery.

Optional:

PLC control system with correction size adjust.

Ultrasonic double-paper inspect.

Specifications

Model	PMZ-GIR920	PMZ-GIR1040
Max. paper size	1040×920mm	1040×1040mm
Min. paper size	420×307mm	420×307mm
Max. speed	150m/min	150m/min
Power	65kw	65kw
Paper Weight	120-600g/m ²	120-600g/m ²
IR Drying	4×4×2kw	4×4×2kw
Weight	5.3t	5.6t
Overall Dimension	15400×1850×1770mm	15400×1950×1770mm
