Semi-automatic Hard Capsule Making Machine Line

Excellent performance
Low investment
Low energy consumption
Simple operation
Simple maintenance

We are leading manufacturer of empty hard capsule making machine, located in Chinese biggest capsule base Shanghai, China.

Actually, it is called as capsule production line, mainly including:

- 1) Melting system
- 2) Production main machine

- 3) Capsule mould

- 4) Cutting machine

Add: No. 538, Longgao Road,
Jiufu Developing Area, Jiuting,
Songjiang District, Shanghai,
China.
PC: 201615

7) Inspection table

8) Grind for titanium dioxide

Technical parameters:

Production capacity: 40,000-70,000 capsules per hours

Capsule type: 0#-4# capsule

Mould size: 199*199*3mm

Capsule thickness precision: $\leq 0.015\text{mm}$

Max dehumidifying capacity: 12kg per hours

Power: 20KW

Add: No. 538, Longgao Road,
Jiufu Developing Area, Jiuting,
Songjiang District, Shanghai,
China.
PC:201615

The production flow chart is:

Melting gelatin →	Dipping gelatin →	Capsule forming →
Drying →	Stripping from mould →	Cutting →
Joining →	Printing →	Finished capsule

Our machine is warmly welcomed by the customer because of above advantages, we are ideal choice for you, especial for the company which plan to set up capsule plant or re-new the equipment in developing country.
