30Watt RGB Commercial and Stage Laser Light ---KVANT 100% made in Slovakia

Parameters

Total optical output: 30W

Red module: 10W/637+660nm

Green module: 10W/532nm OPSL Coherent

Blue module: 10W/445nm

Beam diameter: 5.5mm

Divergence: <1.1mrad

Modulation:

0-5V analog, up to 50kHz TTL

Input connector: ILDA IN DB25 male

Output connector: ILDA OUT DB25 female

Power requirements: 230V/50Hz (±5%)

Consumption: max. 600VA

Operation temperature: 10-35°C

Weight: 48kg

Dimensions (WxHxD): 670x370x300mm

Package: Flight Case

Shipping Forwarder: DHL

Shipping Term: 2weeks

Shipping Port: SLOVAKIA or Guangzhou, Mainland China

Payment Term: T/T, PAYPAL

Product Features:

1. U.S. Coherent laser module, perfect quality of beam, energy concentration, long range, long-distance projection brightness is several times DPSS

lasers.

2. After optimization of the Cambridge high-speed scanning system CT-6215HP reached 40kpps, can project a more stable and sophisticated laser screen.

3. Built-in microcomputer self-checking system to ensure long-term stable operation of the laser light

4. Full sealed optical cavity structure, can be truly maintenance free

Suitable for:

5 Meet the demanding of theaters with quality, performance, stability and large venues

6 Animation laser water curtain, fountain animation laser, fireworks, etc;

7 Concerts, large-scale performance;

8 Outdoor wall advertising; civil landscape engineering, garden engineering, landmark lasers
