3. Performance:

YDFM-A series of laminating machine is a multifunctional laminator which is newly developed upon customer's feedback and market needs, and suitable for pre-glued film and glueless film. This machine doesn't need glue and can laminate paper with pre-glue film or glueless film in certain temperature and pressure. The machine avoids environmental pollution and toxic residuum from traditional laminating technology, and reduces energy-loss and saves production costs. The machine is widely used for the lamination of packing box, food box, books and drawings etc. The laminated products will be water-proof,

durable, of clear picture and good spatial effect. The machine is equipped with frequency converter to adjust working speed. The heating roll adopts built-in oil heating system. Hydraulic system provides big pressure for lamination. The whole machine has the features of high speed, low noise and stable running.
