

Features

- 1、 Double-row TRB(Tapered Roller Bearing)Equipped for All Cylinders
- 2、 Underside Feeding Swing Arm and Front Lay
- 3、 Separate Adjustable Plate Clamp for Quick Register Correction
- 4、 Centralized Control through Touch Screen
- 5、 Air Clutch for Cylinders and Rollers ;Both Automatic and Manual Clutch Control Possible For Flexible Operation
- 6、 Gripping Force Adjustable For All Grippers on Transfer Cylinders
- 7、 Stainless Steel Sprayed Plate Cylinder
- 8、 Frequency Conversion Speed Regulation for Water Pan roller
- 9、 Centralized Automatic Lubricating System

Main Specifications

Max. speed	10000s/h
Max. sheet size	720×1040mm
Min. sheet size	360×520mm
Max. printing area	710×1030mm
Thickness(weight) of paper	0.04~0.20mm (40~200g/m ²)
Feeder pile height	1200mm
Delivery pile height	1000mm
Overall power	26kw
Overall dimensions	5800×3400×2750mm
Machine weight	≈16000kg
