

Screen Protector Series

TPU

- Effectively absorb the impacts and protect screen from scratch damage
- Thin, durable and light. No added bulky feeling to your device
- No air-bubble, No residue by using optical silicone adhesive

Anti Glare

- Minimize fingerprint & dusts
- Relieve eye strains & fatigue
- Durable material provides long term scratch protection
- No air-bubble, No residue by using optical silicone adhesive

Available types: 3H AG, 5HAG, 5HAGAS

Anti Reflective

- Unmatched >96% transmittance for HD-like sharp display and color enhancement
- Better viewability under outdoor sunlight
- Fingerprints minimized and easier to be wiped out
- No air-bubble, No residue by using optical silicone adhesive

9H series

- Japan JIS standard 9H hardness PASS for super scratch-resistant
- Excellent Anti-Shock for screen protection
- Anti-Shattering for ultimate safety
- High transparency > 91% for crystal clear screen
- Great touch sensibility

Available types: 9H Flexible glass, 9H Flexible glass with shock proof
9H Flexible with Blue light cut

Anti Bacterial series

Superior Anti-Bacterial Protection

The anti bacterial protection is processed with superior sterilization particle fusion technology and HIGH PURITY Silica particles that bond firmly with target surface.

These Bac Killer Coatings are durable yet flexible and are extremely smooth, breathable and anti-smudge which will not only provide the usual user experience of a high end film but more importantly, a long lasting, safe and bacteria free user experience as well.

Available types: Bac killer cleaner, Anti bacteria film

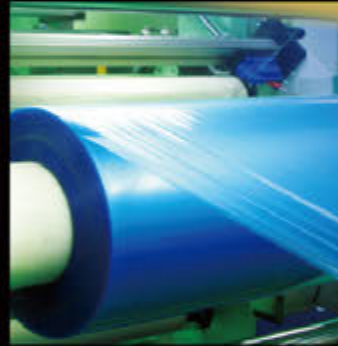

About Monifilm & Right Group

Monifilm was established in 1997 as the flagship brand name of Right Group, Taiwan in response to an emerging trend that Right Group foresees—the trend of smart handheld device with bigger and more sophisticated screen that will require an extra "screen" protection.

10 years later, the first iPhone is introduced to the world, and Monifilm is already a well-established brand in the screen protector industries.

Today Monifilm is well established with optical film protection products not only on the Consumer Smart Phones/Tablets segments, but also spread across military usage, healthcare, banking, government, educational project and private corporate.

OEM / ODM Welcome!

Applications

Mobile Phone & Tablet · Desktop & Laptop · Medical
Automotive · Banking · Education · POS / Kiosk

The Best Film to Protect Your Eyes & Your Screens!

Tempered Glass Series

3D Series

Privacy Series

Full coverage Tempered Glass

Corning

- Full protection for iPhone 6 & 6 plus curved screen
- Japan JIS standard 9H hardness PASS for super scratch-resistant
- High transparency >93% for HD-like screen
- Anti Fingerprint coating is applied to minimize fingerprints
- Excellent Anti-Shattering for ultimate safety
- No air-bubble, No residue by using high-tech silicone adhesive

3D Full Coverage Glass

- Made of Corning glass
- 9H hardness for super scratch-resistant
- 3D real curved for edge to edge perfect protection
- Anti-smudge nano coating for clean screen
- Beautifully rounded edges for more comfortable touch feeling
- Best adherence and attachment with high tech adhesive solution
- Excellent Anti-Shock / Anti-Shattering for ultimate safety

Zero Plus

Ultra Slim protective case gives your device the perfect seamless protection. The zero plus case is made of polycarbonate compound materials. The special formula can strengthen the hardness and makes it scratches sustainable for your daily life. The zero plus case can protect your device without adding any weight, no bulky feeling as well.

Features:

- Super Slim film case
- Perfect combination of film & case
- Snap on Easy Installation
- Weightless protection
- High hardness 5H
- Available Models: iPhone6, iPhone6 plus & MacBook 12"
- Available Colors: Transparent, Gold, Space Grey
- Available Finishing: Glossy & Matte

3D Forming

The 3D Forming Technology provides 100% Seamless Coverage On All Curve Edges Maximum Protection For you ! The 3D thermal forming technology makes it invisibly merge into curve screen, and edge to edge full coverage provides perfect protection. Your curve screen can be 99% dust proof and dirt free as there will be ZERO Gap in between the film and the screen. And the special formula of oleophobic and hydrophobic coating makes it splash and dirt proof for your device.

Features:

- Full coverage on screen
- Crystal Clear Screen Image
- 3H Hard Coating
- Scratch Resistant
- Easy to apply and remove
- No air-bubble, No residue by using optical silicone adhesive

Available Models: iPhone6, iPhone6 plus, S7, S7 Edge

Detachable PRIVACY FILM

Privacy Protection everywhere!

Either you are in the office or in public area, this Privacy film ensures your on-screen data is only visible to you, the person in front of the monitor. Others on the sides could only see a dark screen.

Patented Microlover Technology

This patented microlover technology creates a narrow viewing angle (30° from the left and the right) so that the on-screen data is only visible to the person directly in front of the screen.

Smart Patented Detachable Design

"Snap to protect" privacy film save you a lot of hassles. Just one step, and your screen will go into "Stealth Mode" where no one else besides can see the info on your screen. And you can remove it anytime as you want.

No Hassle. 1 step installation only
Keeps your confidential information safe from wandering eyes. The screen information is only visible to you.

Privacy GLASS 9H

- Keeps wondering eyes from spying what you are doing.
- The screen data is only visible to the person directly in front of the screen, others on the sides could only see a dark screen.

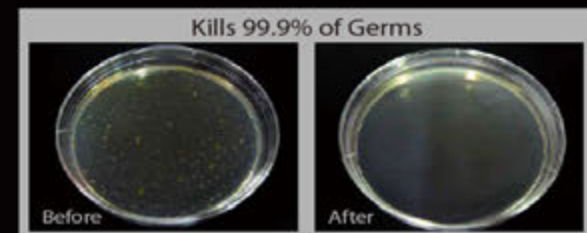

Where do you need privacy

- Government - protect personal data for citizens
- Hospital - protect medical record for patients
- Bank - protect financial data for clients
- School - protect privacy for students
- Office - protect privacy for workers

Anti Bacteria Glass

Special nano technology coating gives you complete protections and reduces the risks of daily germs contact. Cause it not only suppresses the growth of germs and also kills the bacteria efficiently.

Unlike other claimed anti-bacterial screen protector films in the market, Anti Bacteria Killer is a medical class of bacteria killing solution. This Non-toxic sterile technology consists of silicone and zinc nano compound that is proved to kill bacteria effectively in lab test with long acting period of time.

Features:

- Privacy protection everywhere!
- Cover case for full device protection
- Minimize fingerprints
- Scratch resistant
- Good touch sensibility

Available models: iPhone, iPad mini, iPad Air, iPad Pro, MacBook
