

CONPO Solar Charge Controller

Application:

SLD series controller is mainly used for solar street lamps, the garden lamp and the station, wharf etc. Solar lighting system.

Features:

1. It can control two separate loads.
2. Control load mode: Four mode.
3. Low voltage disconnection regulated by state of charge or voltage.
4. PCB board using moisture proof processing.

Technical parameters

Model	Rate Current	Rate Load Current	System Voltage	Ambient Temp.	Terminal Size	Weight	Dimensions
SLD05	5A	5A	12V/24V Auto.	-30C~60C	6mm2	0.31KG	13.6*10.4*4cm (5.3*4.0*1.5inch)
SLD10	10A	10A					
SLD15	15A	15A					
SLD20	20A	20A
