Thermal Printing

Simple and Practical Device, with Convenient Maintenance

Baobiwanxiang Patented Product

### II BB777-Born for the Printing of Small Labels and Wristbands

- ▶ BB777 is capable of printing all sizes of thermal wristbands and thermal labels with maximum width of 4cm. It is the best choice for wristband and small label printing.
- ▶ BB777's 300dpi resolution enables it to print all sorts of one-dimensional barcodes and matrix (2D) barcodes with high precision.

### II The Most Professional Solution for Barcode Printing

- ▶ BB777 is equipped with easy-to-use printing software and user-friendly interface. Regular specifications can be conveniently selected in the system to expedite the printing process.
- ▶ BBDesigner software designed by Baobiwanxiang Technologies CO., Ltd, is a good option for users, which offers batch printing of data based on quick edits and batch uploads, and achieves systematic management of barcode printing.

### II Creating Perfect User Experience

- ▶ Quick installation, easy to use, accessible for ordinary users.
- ▶ Automatic feeding and alignment. Users only need to put printing materials into the printer and switch on the printer before the printing starts.
- ▶ Self-explanatory software and operation interface. Out-of-the-box solution for ordinary users without professional training.
- ▶ Suitable for various places including factories, offices, warehouses, logistics companies, online stores, amusement parks, hospitals, shopping malls, activities and events, etc.
