

Product Parameter

order number	name of a part	model	Specifications/parameters
1	Constant temperature chromium iron	ZFQ010A-V1.0	115.3x14.33X1.6mm Working voltage: 110-240V Power: 60W Display: digital (LED screen) Temperature: 200-450°C (6 steps 200-250-300-350-400-450) Adjustment mode: knob type Matching heating core: two ceramic heating cores Automatic function: Use automatic heating, stop using 10 minutes and then automatically stop heating standby
2	Constant temperature chromium iron	LT011A-V1.0	115.3x14.33X1.6mm Working voltage: 110-240V Power: 60W Display: digital (LED screen) Temperature: 200-450°C (6 steps 200-250-300-350-400-450) Adjustment mode: Press button Matching heating core: two ceramic heating cores Automatic function: Use automatic heating, stop using 10 minutes and then automatically stop heating standby
