

PCU-5ZBS Pull Cord Unit

One Pull Can Be Life-Saving

Wireless Pull Cord Unit PCU-5ZBS can be easily installed anywhere in the home for the user to pull for emergency help. When pulled, the PCU-5ZBS will immediately trigger an alarm, which will be sent by its connected security alarm system or medical alarm to the monitoring center or individuals.

The wall-mounted PCU-5ZBS can be life-saving when the user does not wear a personal trigger. Ideal for bedrooms, bathrooms or kitchen, PCU-5ZBS strategically placed around the home will add an extra level of safety and reassurance in case of an emergency.

PCU-5ZBS requires very low maintenance and low battery consumption, with automatic low battery reporting and 24-hour supervision features to prevent operational irregularities and strengthen protection for the user. The PCU-5ZBS is a simple, easy to install, wireless option for raising an alarm.

Features

- Raise an alarm by pulling the attached cord
- Wireless for easy installation or relocation
- Wall-mount
- Compatible with other manufacturers' ZigBee systems
- IPX4 Waterproof standard
- Low battery detection
- Supervision signals to check system integrity
- Strategic positioning around the home provides extra level of safety
