

The differences between these two materials:			
Characteristic		WPC	Wood
Using property	Humid stability	More stable	Will expand after water absorption
	Durability	Long	Short
	Termite resistance	Yes	No
	UV stability	High	Low
	Acid and alkali resistance	High	Low
	Anti-aging sun	High	Low
Maintenance	Painting	No Need	Yes
	Cleaning	Easy	Middle
	Maintenance cost	No maintenance, low cost	High cost
Colors		Can be customized	Just wood color
lifetime		More than 10 years	Need to be maintained every 1 or 2 years
Environment effects		100% recyclable, friendly	Will lead to deforestation
Installation		Very easy	Easy
