

Specifications

Specifications				Product Configuration
Product Name	Wireless air pump	Product Model	P008	1.Pump X1 2. Adapter x3 3. Valve tube xl 4. Packing box X1 5. Power cord X1 6. Manual X1 7. Storage bag x1
Product Material	ABS	Charging Voltage	DC 5V/2A	
Product Size	170x71x65mm	The output Voltage	DC 5V/1A	
Color box Size	18.5*7.5*11.5cm	Battery Capacity	3*2000mAh 12V	
Carton Size	47*35.2*19.8cm	Operating Temperature	-10~45°C	
Product Net Weight	864.2g	Storage Temperature	-20 ~60°C	
Product Gross Weight	988g	Charging Time	3-4 Hours	
FCL Net Weight	18.5kg	Emergency Lighting	1 LED Light	
Qty	18	Style/Color	Black	
Valve Tube Size	The length of the Valve tube is 200mm (including the gas nozzle)	Cylinder	22 Single Cylinder	
Air Efficiency	The car is inflated from 0-2.5bar for about 6 minutes			
Pressure can be set	150PSI/10.3BAR/990KPA/10.5Kg/cm ²			
Product Features	Tire pressure detection, air pump, night lighting, and built-in power bank function.			
Protective Function	It will stop automatically after 10 minutes of pumping up. (Protect the battery and motherboard)			
Features	The mini size is compact, heavy and light, and easy to carry and store. It is a self-driving tour, outdoor activities, daily necessities.
