

CF-ZX200-2U

ZHAOXIN SERIES

parameter

1. 2U rack server
2. ZHAOXIN KH-25800 CPU, ZX-200 CHIP
3. 4*DIMM DDR4 ECC
4. 12 hot swappable hard disk bits
5. Support IPMI
6. Size: 670*444*88mm

CHARACTERISTIC

Application scenarios:

Chinese ZHAOXIN chips are suitable for military, government, finance, state-owned enterprises and other fields and applications with high requirements for information security

Host characteristics:

Chinese ZHAOXIN industrial control series server is a standard mATX motherboard, equipped with a teracore KH-25800 processor with domestic independent intellectual property rights. It is a self-made and controllable product with scalability, ease of use, reliability and safety.
