HOW TO MEASURE YOUR GLOVE SIZE:

To find out your glove size, measure (in inches) around your hand with a tape measure across your palm. You should use your dominant hand, the right if you are right-handed, and the left if you are left-handed.

GLOVE SIZE EQUIVALENTS:

Some manufacturers indicate glove sizes by number and others by letters standing for Small, Medium, Large, etc. We always indicate the size of a pair of gloves the same way the manufacturer does. Use the table at the right to translate between "letter sizes" and "number sizes".
