

Specifications Used Gamming Desktop Computers

Component	Specifications
Product Type	Used / Refurbished Gaming Desktop Computer
Condition	Used, Tested, Cleaned, and Fully Functional
Processor (CPU)	Core i5 / i7 / i9 or AMD Ryzen 5 / 7 / 9
Processor Generation	4th Gen up to Latest Available Generations
Graphics Card (GPU)	Dedicated GTX/RTX or AMD Radeon RX Series
GPU Memory	4GB / 6GB / 8GB / 12GB / 16GB VRAM
RAM Capacity	8GB / 16GB / 32GB / 64GB DDR3 / DDR4 / DDR5
Storage Type	SSD / NVMe SSD / HDD Combination
Storage Capacity	256GB / 512GB / 1TB / 2TB+
Operating System	Windows 10 Pro / Windows 11
Motherboard	ATX / Micro-ATX Gaming Motherboard
Cooling System	Air Cooling / RGB Fans / Liquid Cooling
Power Supply	500W – 1000W Gaming PSU
Connectivity	Wi-Fi, Bluetooth, Ethernet LAN
Ports	USB 2.0 / USB 3.0 / USB-C / HDMI / DisplayPort / Audio Ports
Audio	HD Audio / Surround Sound Support
Networking	Gigabit Ethernet / Wireless Connectivity
Expansion Slots	PCIe Slots for GPU & Additional Components
Casing	Gaming Tower with RGB Lighting / Tempered Glass
Supported Resolution	Full HD, 2K, 4K Gaming Support
Performance Use	Gaming, Streaming, Video Editing, Rendering, CAD
Gaming Support	AAA Games, Esports, VR Ready (Depending on Configuration)
Upgradeability	Expandable RAM, Storage, GPU, and Cooling System
Accessories	Keyboard, Mouse, Power Cable (Optional)
Popular Brands	All Gaming Series
Typical Usage Life	3 – 8 Years Depending on Hardware Condition
Quality Check	Stress Tested and Performance Verified Before Resale
