

## Product Specification

|                       |                                                                         |
|-----------------------|-------------------------------------------------------------------------|
| Model NO              | TY-16G                                                                  |
| Product Name          | Bluetooth microphone AI voice smart remote control                      |
| Function              | RF Control For Home Appliances & Projector                              |
| Frequency Range       | RF 38KHZ, wireless 2.4GHZ, 433MHZ (other frequencies can be customised) |
| Color                 | Black                                                                   |
| Code Type             | NEC、FSK (Customized)                                                    |
| Keys                  | 16 keys                                                                 |
| Private Mold          | Yes                                                                     |
| Transmitting distance | $\geq 12$ M                                                             |
| Temperature           | -10℃ +50℃                                                               |
| Working voltage       | 2.2-3.3V                                                                |
| Current range         | <30mA                                                                   |
| Product Size (MM)     | 153*38.5*15.2                                                           |
| Product Weight (G)    | 43                                                                      |
| Carton Size (CM)      | 560*320*173mm                                                           |
| Quantity (PCS)        | 200PCS                                                                  |
| Weight (KGS)          | 9.6 kgs                                                                 |
| Material              | 100% ABS elastic and soft PVC material                                  |
| Battery Type          | AAA1.5A*2                                                               |
| Price                 | USD1.45/PC                                                              |
| MOQ                   | 3000pcs                                                                 |
| Lead Time             | 15-25days                                                               |
| Place of Origin       | Shenzhen, China                                                         |
