

## AT-Q44C Specification

Model No. : AT-Q44C

Size: 60mm\*42mm\*25mm

**Product** ID (产品外观) :

### Hardware Specification (硬件规格) :

|                         |                                                  |
|-------------------------|--------------------------------------------------|
| Operation System (操作系统) | Linux                                            |
| Language (语言)           | Chinese,English...Multi-Language support         |
| CPU (处理器)               | All winner V316                                  |
| SDRAM (系统内存)            | LPDDR3 1G                                        |
| WIFI Module (wifi模组)    | XR819                                            |
| Extended storage (存储扩展) | TF Card, up to 64GB                              |
| LCD Display (液晶显示)      | 2.0" IPS Screen                                  |
| Image Sensor(图像传感器)     | Sony IMX386 13M                                  |
| LENS (镜头)               | FNO2.4, FOV170                                   |
| HDMI Output (HDMI输出)    | HDMI support maximum 4K                          |
| USB Port (USB接口)        | Micro USB USB 2.0 (Power Supply DC 5V/2A )       |
| Led work light(led 状态灯) | support WIFI,Recording,Charging                  |
| Audio recorder (音频录制)   | support                                          |
| Speaker (喇叭)            | 8Ohm 0.8W                                        |
| Operation KEY (操作按键)    | POWER / UP / Down/OK                             |
| Battery life (电池使用寿命)   | 3.7V 900mA/H 4K/30FPS Video Recording 60 minutes |

### Functional specification (功能规格) :

|                                     |                                                                                                                                                                                                                                                              |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| H.264 Video Encoder<br>(H.264 视频编码) | Sony IMX386 support:<br><input type="checkbox"/> 4K/30FPS(3840x2160)<br><input type="checkbox"/> 2.7K/30FPS( 2688x1520)<br><input type="checkbox"/> 1080P/120FPS/60FPS/30FPS(1920*1080)<br><input type="checkbox"/> 720P/240FPS/120FPS/60FPS/30FPS(1280x720) |
| photographed function(拍照功能)         | Support 8M ,13M,16M,20M,24M                                                                                                                                                                                                                                  |
| Drama shot/timing shot              | Support                                                                                                                                                                                                                                                      |

|                                                                      |                                        |
|----------------------------------------------------------------------|----------------------------------------|
| Slow Motion/time-lapse photography/loop recording<br>(慢动作/缩时摄影/循环记录) | Support                                |
| Power saving function (省电功能)                                         | Support                                |
| USB mode (USB模式)                                                     | Support PC camera/Mobile disk/Charging |
| Firmware update (固件更新)                                               | Support TF Card update                 |
| Android APK, apple APP<br>(安卓应用,苹果应用)                                | Support , Search "XDV PRO"             |
| 2.4G remote control                                                  | Support                                |
| EIS                                                                  | Support                                |
| Touch screen                                                         | Optioanl                               |
| Extenal microphone                                                   | Optioanl                               |
| <b>Other Parameters(其它):</b>                                         |                                        |
| Operating Temperature(工作温度)                                          | -10~50℃                                |
| Storage Temperature(储存温度)                                            | -10~70℃                                |
| Humidity environment(湿度环境)                                           | 5%-90%(No condensation)                |
| Certification(安规认证)                                                  | CCC,CE,FCC,Wi-Fi                       |
| Waterproof level (防水等级)                                              | 30 meters                              |
| Sports accessories(运动配件)                                             | 19 unit                                |
| <b>Package (包装参数) :</b>                                              |                                        |
| Dimension(产品尺寸)                                                      | 60mm*42mm*25mm                         |
| Net weight(净重量)                                                      | 0.65kg                                 |
| Gift Box Size(彩盒尺寸)                                                  | 23*16*6cm                              |
| Carton box weight (纸箱重量)                                             | 9.6kg                                  |
| Carton Box Size (纸箱尺寸)                                               | 47*32.5*34cm                           |
