

HARVESTER SERIES

4YZP-4KA 4 ROWS CORN COMBINE HARVESTER

PRODUCT DETAILS

PRODUCT FEATURES

"Gold Dafeng" 4YZP-4KA type self-propelled corn harvester, compact design ,multifunc tional , flexible turning, fast transfer speed. Four-wheel drive, low center of gravity, strong climbing ability, suitable for semi-mountainous, hilly areas. The header uses a header plate + pulling roller, suitable for corn harvest with low moisture content, low corn loss rate. The entire machine structure is simple, with a wide range of adaptability, and is more suitable for corn harvest with high maturity.

Large grain recycling box

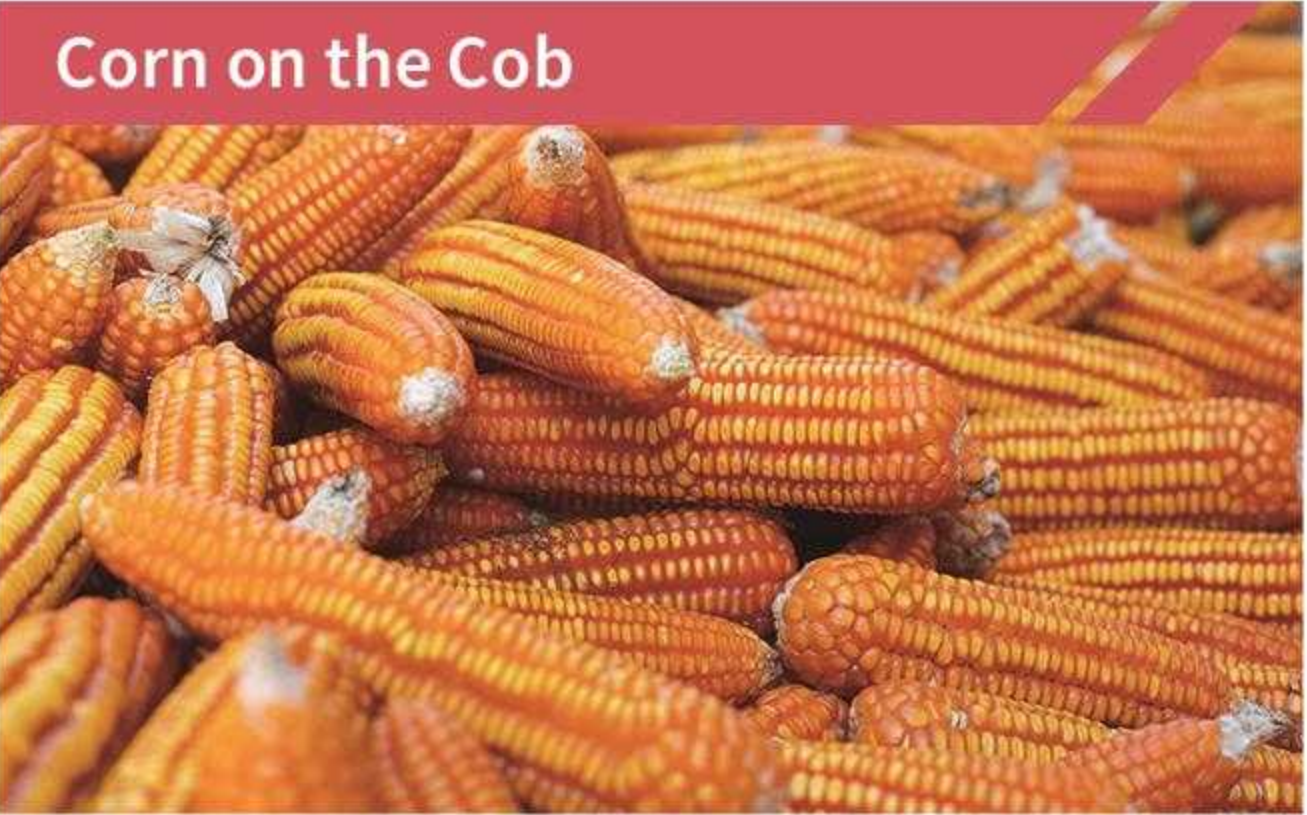

One-lever control

Mechanical four-wheel drive

Corn on the Cob

PRODUCT CONFIGURATIONS

- 1.Middle-mounted straw crushing machine, extra-large panoramic driving room, broad vision, comfortable and safe driving;
- 2.Drive tires 320/70R24, strong load-bearing capacity, wide steering tires 12.5/80-18, configured with mechanical four-wheel drive steering bridge, easily dealing with all kinds of complex terrain;
- 3.High and low double stirrup grain cleaning, grain does not fall on the ground, and good cleaning effect;
- 4.500/550/620 row spacing uneven harvest, adaptable to wide range of cultivation techniques, high efficiency, and strong versatility. At the same time, a long protective shield spike can be matched, easily dealing with lodged harvesting;
- 5.200 liter quick-release large grain recovery box, which can realize the double mode of grain return bin,saving unloading frequency and time;
- 6.Re-matching and optimizing the header speed ratio, adding pulling rollers, which can realize two-speed high-speed harvest, high efficiency;
- 7.The elevator is equipped with secondary pulling rollers + double row impurity fan, both long and short straw can be discharged, and the grain box is clean. A 16-roller flat roller peeling machine is used, with a longer peeling roller and a configuration of variable-speed chain wheel;
- 8.Transmission is simple, and key parts increase clutch for high reliability.

PRODUCT PARAMETER

Model	4YZP-3GC	4YZP-4FC	4YZP-4FD	4YZP-4KA
Number of Rows	3	4	4	4
Engine horsepower(HP)	200YuChai	260YuChai	280YuChai	160Weichai
Productivity(hm ² /h)	0.3-0.6	0.4-0.7	0.5-0.9	0.4-0.7
