

| Main Parameters                              |                             |
|----------------------------------------------|-----------------------------|
| Model                                        | 2.8 Inch Serial Port Screen |
| Resolution                                   | 320*240                     |
| Voltage                                      | 5V                          |
| Communication Method                         | UART Serial Communication   |
| Screen Effective Display Area ( AA )         | 57.6mm*43.2mm               |
| Product Dimensions (Length * Width * Height) | 85mm*50mm*11.6mm            |
| Operating Temperature                        | -20 ~ +70 °C                |
| Storage Temperature                          | -30 ~ +80 °C                |
| Display Type                                 | TN LCD Screen               |
| Backlight                                    | LED                         |
| Brightness ( cd/m²)                          | 300                         |
| Viewing Angle ( L/R/U/D )                    | 12 o'clock                  |
| Touch Type                                   | Capacitive Touch Screen     |
