

L6A-65 Interactive Smart Board Specification Sheet

L6A-65 Interactive Smart Board Full Technical Parameters

1. Display Parameters

- Model: L6A-65
- Screen Size: 65 inch
- Resolution: 4K UHD
- Viewing Angle: 178° wide viewing angle
- Response Time: 8ms
- Surface: Anti-Glare tempered glass

2. Touch Parameters

- Touch Type: Infrared touch
- Touch Points: 20-point multi touch
- Touch Response: Smooth simultaneous writing for multiple users

3. Hardware Configuration

- Main Chip: GK6760V100 Octa-core A55
- Memory: 4GB RAM + 32GB ROM
- System: Built-in Android 14; Optional dual system OPS module
- Wireless Connection: Dual-band WiFi + Bluetooth 5.0
- Interfaces: Complete rich expansion ports

4. Appearance & Material

- Front Frame: Aluminum alloy with sandblasted finish
- Overall Dimension: 1485×108×887mm
- Design: Compact & slim body
- Power Feature: Low power consumption

5. Installation & Matching Accessory

- Mount Way: Support easy wall mounting
- Optional Accessory: Lockable mobile stand with rolling wheels, convenient mobility

6. Application Scenarios

- Small classroom, kindergarten, preschool
- Private tutoring center, education training institute
- Small meeting room, offline teaching workshop

7. Core Selling Points Summary

1. 4K anti-glare screen brings clear visual experience
2. 20-point infrared touch supports group interactive learning
3. Powerful octa-core chip ensures smooth running of interactive smart board
4. Dual wireless connection for fast file screen projection
5. Two installation modes to fit different space layouts
6. Durable aluminum frame, stable long-term daily teaching use
