

Pre-insulated Duct Cutting Machine

Specification:

Data/ Model	VDCM-3013	VDCM-4013
Working size	3000mm*1300mm	4000mm*1300mm
Machine size	3610*2050*1360mm	4610*2050*1360mm
Cutting ways	half blades, full blades and V blades	half blades, full blades and V blades
Cutting speed	0-1500mm/s	0-1500mm/s
Cutting thickness	≤30mm	≤30mm
Cutting accuracy	≤0.1 mm	≤0.1 mm
Repeat accuracy	≦0.05mm	≦0.05mm
Minimum circle	≧5mm diameter	≧5mm diameter
Power	10KW	10KW
Graphic format supported	format AI software,Autocad, Coreldraw and all box software	format AI software,Autocad, Coreldraw and all box software
Working voltage	AC 220V 380V ±10%，50HZ	AC 220V 380V ±10%，50HZ

Description:

VENTECH pre-insulated duct fabrication cutter is fully functional machine.

* With automatic typesetting software.
* 2 in 1 cutting function. One head for shaped cutting and 5 heads for fast straight duct cutting.
* High efficiency. Cutting fast, and no need skilled worker.
