

Product Specifications	
Model Name	DFSB-005
Compact Structure	Updated based on the original S2 Type Bracket, adjustable to fit most speedlites – regular head, round head, multi flashes, and outdoor flashes by removing the 2 blocks included.
Mounting Method	Speedlite body is held and fixed using a big mount, which provides stable and secure support.
Installation	No pre-assembly or post-disassembly required. Does not require Velcro or pressure on the hot shoe.
Functions	Bowens mount, speed ring, umbrella input, direction-adjustable handle. Mount can be adjusted horizontally and vertically by wrapping the speedlite body.
Dimensions (L × W × H)	Approx. 15.3 × 5.5 × 18 cm
Compatibility	Compatible with most studio flash accessories of Bowens mount such as softbox, reflector, beauty dish, etc.
