

- Real 8K HDMI certified cable: The HDMI cables pass HDMI 2.1 Certified. The HDMI Cable delivers 10K 8K@60Hz and 4K@240Hz higher resolution, 4 times higher than 4K@60Hz. The advanced technology makes a remarkable improvement in image clarity and sharpness
- 48Gbps ultra high speed: The HDMI 2.1 Cable with 48Gbps bandwidth delivers uncompressed 8K(7680 x 4320) video and high-speed transmission without signal loss. Make it faster 2.6X than HDMI 2.0(18Gbps). The 4K@240Hz HDMI cord also supports variable refresh rates and QFT to decrease "display latency". Auto low latency mode and quick media switching for movies and video use the HDMI VRR mechanism to eliminate the blackout period when an HDMI Source device switches its video mode
- Dynamic HDR & eARC: This HDMI Cable features Dynamic HDR to let you capture more details with 12-bit color accuracy and get breathtakingly realistic pictures. The function of eARC (Enhanced Audio Return Channel) directly delivers full-resolution audio, like Dolby Atmos, DTS:X from TV to soundbar/AV receiver. Also Support HDCP 2.3/2.2, Ethernet, 3D
- Enhanced durability: Built with a robust aluminum alloy case, nickel-plated connectors, and a durable nylon braided jacket, HDMI cables can withstand more frequent bending tests and decrease rupture without reducing cable flexibility, ensuring enhanced signal transmission performance and a longer lifespan
- Wide compatibility: Compatible with Apple TV/PS5/PS4 Pro/Roku Stick, Xbox Series X/S/Xbox 360, Nintendo Switch/Switch 2, Wii U, Mac mini M4/M4 Pro, Laptop, PC, Blu-ray player, AV Receiver, TV stick, TV Box, DVD player, LG 8K UHD TV, Samsung G8/G9 QLED TV, Soundbar, Projector, Monitor and more
