

3G/GSM Door Intercom

Make your life easy

Dear Sir,

Are you tired of key to unlock this gate to access ?
Or It's hard to install Door system ?

Solution : Mobile Access

When utilizing smartphones as part of an access control system, managers can provide a convenient and practical solution to access this gate , our mobile phone just make call or Siri /Okay google can do it for you !!

NO NEED INTERNET AND IT CAN OPEN THIS GATE !!

(*Voice assistance Siri,okay google will need internet)

Three ways to activate this gate : Fast detect Caller ID

**Smart Voice
Assistance**

Or

**Enter password
via keypad**

Or

**Application
Make Call**

Siri /Okay google

How to work ? First you need to program mobile phone numbers into device via applications . After it you can make call via applications (or call) to device , when it detects this caller ID is stored at device's contact numbers , it will drop this call and activate this trigger to unlock this gate . (if it's not stored at device's storage contact numbers, it will ask you to enter password)

**200
households**

**2G /3G
SIM card**

APP

**600 destination
numbers**

**1152 USER
access control**

**Control
2 in / 2 out**

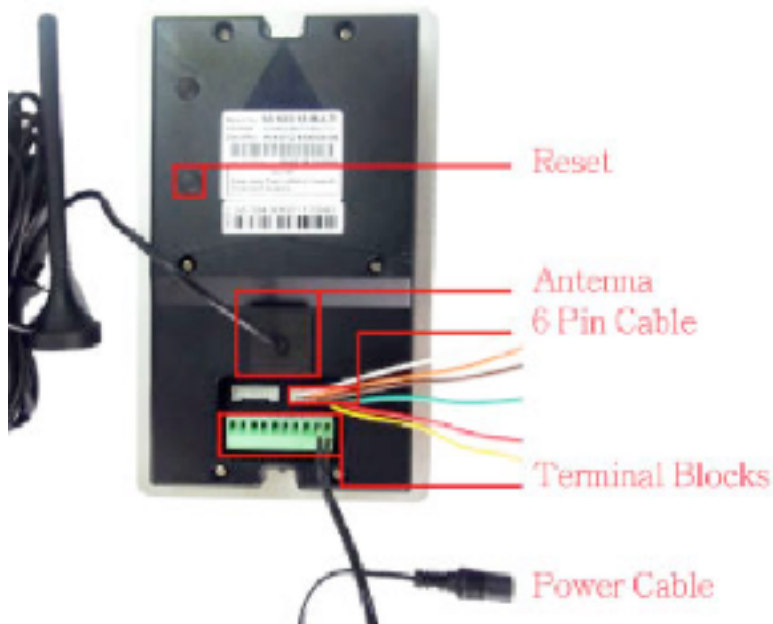

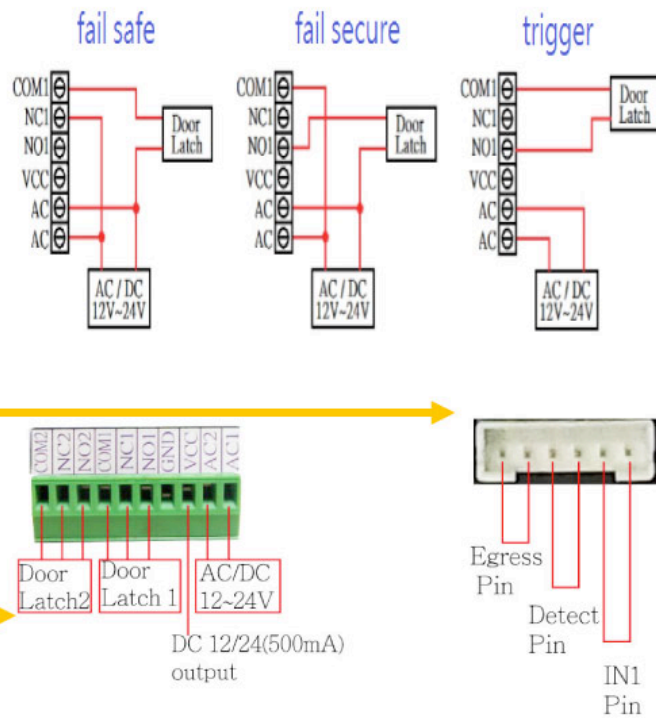

**384
PIN codes**
