

Copper nut - Krulled copper nut - Hexagon nut - Copper cup - Shrapnel - copper post - Copper needle - PIN pin - copper sheet - screw - copper sleeve - copper pipe - oil bearing sleeve - square shaft - intelligent door lock accessories, copper shaft, automatic lathe, CNC lathe parts, weight iron, counterweight block

- CNC lathe parts - stamping parts - Industrial plug sockets

The company has passed ISO9001:2015 certification

Specialized production

1, automatic lathe parts: Copper nut, copper post, copper sleeve, copper shaft, copper needle, non-standard copper nut, injection

molding copper nut, copper insert, khurling copper nut, hot melt nut, embedded copper nut, mobile phone nut, straight nut, mesh nut, stainless steel nut, square nut, horseshoe copper connector, riveted nut, screw, copper post, internal and external tooth copper connector, PIN pin, copper pipe, copper shaft, copper connector, Hollow copper pipe, welded copper pipe, non-standard copper screws, copper rivets, washers; Square shaft, stainless steel shaft, copper sleeve, copper cup

2, stamping parts: battery shrapnel, bending sheet, mechanical hardware accessories, weighted iron, counterweight block;

3, CNC lathe parts;

4, LED fluorescent lamp accessories: O-type terminal wire, T-type terminal wire, Dupont terminal wire, quick connector terminal wire, hollow copper needle, solid copper needle, welding foot copper pipe, single needle, etc.

Specifications: A variety of options, can be ordered to map to sample.

Material: green copper, lead-free copper, 12L14 free iron, 12L15 green iron, 6063, 6061, 2011 aluminum, 303 stainless steel, 304 stainless steel, 316 stainless steel, POM rod, steel, Teflon and other materials;

Moq: 10000 pieces (5000 products are shipped from stock);

Surface treatment: natural color, galvanized, nickel plated, copper plated, chrome plated, gold plated, tin plated or according to customer requirements;

Delivery time: normal 7 days, urgent goods according to customer requirements delivery;

Accuracy: up to ± 0.01 ;

Scope of application: electronic appliances (blower, juice machine, soybean milk machine, computer, fan, air conditioner, electronic scale, etc.), instruments, toys, machinery

Gold accessories, jewelry hardware, lighting, Musical Instruments, clocks, sports equipment, ATM machines, etc.;

Production equipment: precision automatic lathes, CNC lathes, grinding machines, milling machines, punches, drilling machines, screw machines, etc.

Processing equipment: automatic tapping machine, chamfer machine, milling machine, etc., drilling machine.

Testing instruments: micrometer, electronic caliper, projector, salt spray tester, hardness tester, torque tester, etc.

Surface treatment equipment: polishing machine, grinding machine, etc.

Processing method: turning processing, stamping.

Business tenet: Quality first, service first, reasonable price, fast delivery!

Customers need to know:

1, because all our goods are customized non-standard products, so all our products once sold, no quality problems can not be returned. As we do

Cause quality problems, from the date of receipt of goods within 7 days can accept replacement.

2, the pictures provided by our company are for reference only, the same product has many specifications, the online price is for reference only, the specific price please call, to map or sample consultation. The specific product picture and size shall be subject to the drawings or samples confirmed by both parties.

All pictures of our company are taken by real objects, please do not reprint without permission, thank you for your cooperation!
