

SFB-1 Smoke Generator Transmitter

Protects Your Valuable in the Most Effective Way

SFB-1 is a wireless Smoke Generator Transmitter which can be placed inside of the Securitalia Sistemi 19EL Smoke Generator, and transmits signals received from the Climax Control Panel to the Smoke Generator for instantaneous smoke generation in an emergency situation. By installing the SFB-1 into 19EL Smoke Generator, the latter prevent burglary and theft by generating security smoke, instantly clouding the vision of intruders to protect your valued properties.

Features of Securitalia Sistemi 19EL Smoke Generator

- Power supply: 3V DC battery pack
- Supply voltage: 3V
- Saturable volume: 100 to 130 cubic metros
- Instantaneous consumption after smoke ignition: 1,700 mA (100 ms)
- Standby consumption: 0.01 mA
- Consumption in alarm: 500 mA
- Smoke dispensing time: 25 seconds
- Smoke Nozzle: metal, adjustable by angle of 360°
- Storage temperature: -20°C ~ +55°C
- Operating humidity 90%
- Dimensions: 185 x 100 x 105 mm
- Weight: 850 g (including cap and batteries)

Specification of SFB-1

Frequency	868 MHz / 433 MHz
Power Source	3V DC Battery Pack
Backup Battery life	5 years*
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	182mm x 99mm x100mm

*Note: The actual battery life may vary with product settings, usage patterns and operating environment.
