

Eureka G4 GPS Tracker

Eureka G4 is a mini GPS tracker working on LTE-M/NB-IOT cellular networks. It combines GPS, WiFi positioning and Bluetooth proximity tracking. And it comes with Geofence, SOS alert, Location history functions and etc.

1. 5G-Compatible (LTE-M/NB-iot) Cellular (Vodafone, T-Mobile, Verizon, AT&T, Orange and etc.).
2. LTE bands: Band 2, 4, 5, 8, 12, 13, 20, 28
3. GPS, cell tower, Wifi positioning and Bluetooth proximity tracking.
4. Mini size 2.28x1.65x0.83in / 58x42x21mm.
5. SIM and battery securely built in.
6. Rechargeable battery 500mAh.
7. Working time: 10 - 60 days depending on adjustable update interval.
8. Panic/SOS button and 90dB louder buzzer.
9. Sensors: thermometer, accelerometer.
10. Waterproof (IP67).
11. USB charge cable included.
12. Affordable SIM card service.
13. Free intuitive iOS and Android apps.
14. Quick and easy pairing.
15. Support multiple users and devices.

Specification:

Cellular	
Compliant	LTE-M/CAT-M1/NB-iot
LTE bands	Band 2, 4, 5, 8, 12, 13, 20, 28
Locating (accuracy typically within 100ft)	
GPS	Outdoor positioning
Wi-Fi	Indoor & outdoor tracking (Supported by Google)
Bluetooth	Proximity tracking
Chipset	
Cell modem	Nordic nRF9160 (The lowest power consumption modem)
GPS	AT6558 (GPS/BDS/GLONASS)
Bluetooth	Nordic nRF52832
Electrical	
Charging voltage	5V DC
Battery	Rechargeable 500mAh
Working time	10~60 days*
Buzzer	90dB
Indicator LED	Battery and cellular status
Button	Emergency alert or custom function
Physical & Environmental	
Dimensions	56*42*21mm
Weight	65g
Operating temperature	-10 °C ~ +55°C
Waterproof	IP67

*Battery life may be vary according to operating conditions, available networks, connection interval settings and device activity. The tracker works depending on adjustable update intervals or a dynamic reporting based on movement.
